 - **Technical Skills:** C, Java, HTML, CSS, JavaScript.
-

ACADEMIC PROJECTS

Nutrition & Workout Planner – Vedic Vision Hackathon

Special Prize – 1st Place Category

Developed a Nutrition and Workout Planner website as part of the Vedic Vision Hackathon, which secured 1st place in the Special Prize category. The website included features such as a nutrition planning section, workout recommender, and a task management page to add and complete daily fitness tasks. This project strengthened my understanding of basic web development and teamwork.

Hotel Menu Webpage (Mini Project)

Designed a basic HTML-based hotel menu webpage showcasing structured content layout and clean presentation of food items. This project helped me strengthen my fundamentals in HTML structure, tags, and layout organization.

ADDITIONAL INFORMATION
